

Photography and Filming Declaration of Consent

Children aged **16 and above**

We will strive to ensure the images and videos taken are used **only** for the purposes they are intended. We will **not** allow photographs, videos, or any other image to be taken without consent. This is in accordance with our child protection policy. Any child 16 years old and over can provide their own permissions. We will inform parents and carers if you consent, so they are aware that your images may be used in whichever way you have consented to below. If anyone in our community identifies any image or video being used inappropriately, then they **must** inform us immediately.
